FAMILY PERSPECTIVES

PARENTS

“It's one peace of mind amidst the chaos.”

“By Their Side has helped us already, to navigate the disabilities support system and to resolve disagreements with his service providers.”

“This resource will enable our younger daughter to pursue her career and dreams, without being solely responsible for overseeing her sister's care.”

“They also help educate parents and family members on the rights and services available to the disabled in our state and how to navigate the system.”

“As a parent and a professional in the ID field, I have learned the "ins and outs" of the system. However, his brother does not have that advantage, and we enrolled so that he would have support to make informed decisions.”

SIBLINGS

“My sister lives far away from me They are a God send.”

“By Their Side is extremely proactive in monitoring and evaluating my brother's care.... They take action and communicate with me long before I have questions. What a great partner.”

“It is comforting to know that expert help is just a phone call away!”
